SGP - 6/1000 HD		6	1000	2170	8000	350	1700	2355	1890	2300	2600	70 x 150

- Cylinders with double-ball joint, hydraulically cushioned.
- Fully made of special, fine grain steel.
- Geometry and kinematics thought to combine closing power and speed.
- Extra-large pivot points and oversized pins grant maximum reliability.
- Accurate construction, solid end stops (opening and closing).

POLYP SCRAP GRAPPLE

Compact and versatile polyp grab, suitable for handling scrap metal, urban waste and loose materials.
